Planetary Herbals Introduces Mangosteen

Xanthone-Rich Antioxidant and Immune Support

Scotts Valley, CA - From the jungles of Southeast Asia comes an exciting plant that is extremely important for today's health! Planetary Herbals presents MANGOSTEEN, a rare tropical fruit drink formulated to provide you with a powerful blend of beneficial nutrients.

Mangosteen has been used for centuries by traditional health practitioners of India, Malaysia, Thailand, the Philippines, and Vietnam; it is now gaining worldwide fame for its wide-ranging health benefits. Mangosteen is rich in xanthones. These antioxidants enrich and protect the entire body.

Threshold Enterprises, Ltd. spokesperson Todd Williams says, "Mangosteen naturally contains 40 types of xanthones, such as mangostin, mangostenol, mangostenone A, trapezifolixanthone, and many more. Studies have shown that xanthones can strongly support healthy immune and cardiovascular systems by functioning as potent free-radical scavengers."

Planetary Herbals MANGOSTEEN delivers 28 mg of these high-potency antioxidants, which help maintain immune system health. The delicious drink blend also includes the highly regarded tonifiers eleuthero, schisandra, astragalus, and turmeric that further strengthen the immune system and increase the potency and wide-ranging benefits of the drink.

Planetary Herbals integrates the best of worldwide herbal traditions with modern clinical and pharmacological research. The result is an herbal product line that is unequalled for efficacy, safety, and dependability. For more information or purchase locations, please visit
