Planetary Herbals Introduces Cinnamon Glucose Balance™

Dynamic Metabolic Modulator

Scotts Valley, CA - Planetary Herbals Cinnamon Glucose Balance™ is a comprehensive blend of herbs and nutrients designed to support healthy metabolic function and maintain healthy blood sugar levels already within the normal range. The botanicals included in Cinnamon Glucose Balance™ are carefully selected for supporting healthy blood sugar metabolism and insulin function.

Planetary Herbals herbalist Roy Upton says this about Cinnamon Glucose Balance™, "The modern diet all too often includes the consumption of sugar and refined carbohydrates which can throw metabolic systems out of balance and affect blood sugar levels. There's a lot we can do to turn this situation around. We can adopt healthy lifestyle strategies and turn to natural botanicals and herbs to help maintain healthy metabolic balance."

The multiple natural ingredients in Cinnamon Glucose Balance™ are selected from the world's cultures and have a tradition of safe and effective use. This formula includes herbs such as cinnamon, fenugreek, bitter melon, gymnema sylvestre, and holy basil for healthy blood sugar support, with supporting nutrients alpha-lipoic acid, chromium and vitamin D. Other herbs including blueberry leaf, hawthorn, salvia and silymarin, are added for antioxidant defense and cardiovascular support.

Planetary Herbals Cinnamon Glucose Balance™ contains key botanicals which have been shown to support sugar metabolism and healthy weight, when used as part of a comprehensive lifestyle plan, along with eating a nutritional diet, low in refined sugars, and by getting regular exercise.

Planetary Herbals integrates the best of worldwide herbal traditions with modern clinical and pharmacological research. The result is an herbal product line that is unequalled for efficacy, safety, and dependability. For more information or purchase locations, please visit <http://www.planetaryherbals.com>.
