## **Planetary Herbals Introduces Old Indian Syrup for Kids**

### **Seasonal Support for Children's Respiratory Health**

**Scotts Valley, CA** – Wild cherry bark was treasured by the North American Ojibwa Nation of Minnesota to support healthy respiration. Later, European settlers were quick to see the benefits of the cherry tree, and began to incorporate the bark into their own traditions. Based on his own clinical work, renowned herbalist Michael Tierra, L.Ac, O.M.D., noted the effectiveness of wild cherry bark for healthy respiration and included it as a key ingredient in Planetary Herbals original formula, Old Indian Wild Cherry Bark Syrup.

Based on the tried and true original formula for adults, Planetary Herbals now offers Old Indian Syrup for Kids, seasonal support for children's respiratory health. The syrup is designed particularly for children 1 year of age and over, supporting immune system response, easy breathing, healthy respiratory function and clear sinuses. It is a delicious wild cherry flavor kids like.

Planetary Herbals herbalist Roy Upton says, "Old Indian Wild Cherry Bark Syrup is one of the oldest and most popular products in the Planetary Herbals Line. Prior to being in the Planetary label we custom made it with herbs right from the garden to use in clinical practice. It is exciting that we now have a version that is specifically designed for children."

Planetary Herbals Old Indian Syrup for Kids is made in a no-alcohol base of glycerin. The formula includes other botanicals from Native American and Chinese herbal traditions. Several notable ingredients are Echinacea, Yerba Santa, Elecampane and Loquat.

Herbalist Upton adds, "A formula such as this includes various classes of botanicals to address the various aspects of respiratory and immune health that will help give children the upper hand in promoting and maintaining a healthy respiratory system."

Planetary Herbals integrates the best of worldwide herbal traditions with modern clinical and pharmacological research. The result is an herbal product line that is unequalled for efficacy, safety, and dependability. For more information or purchase locations please visit <http://www.planetaryherbals.com>.
