OVERVIEW

Dr. Tierra's Wild Cherry Bark Syrup™ was developed by world-renowned herbalist and author Michael Tierra, L.Ac., O.M.D. and has been used in his clinical practice for more than 40 years. Specifically designed for Dr. Tierra's patients, this formula contains four primary classes of botanicals traditionally used for supporting a healthy respiratory system: soothing demulcents, aromatic spices, lung tonics, and herbs like echinacea for supporting healthy immunity. This unique herbal syrup is lightly sweetened with honey, and specially prepared using a multi-step extraction process that captures a broad spectrum of compounds. Once people experience the difference made by the personal touch and traditional care that go into each step of this syrup's creation, they'll always want to have it in their cabinets!*

SELLING POINTS

- Supports the free and easy breathing of a healthy respiratory system
- Supports a healthy immune system
- Soothes lungs and throat
- Contains echinacea, North America's legendary immune-supportive treasure, to maintain internal defenses
- Formulated by renowned herbalist Michael Tierra, L.Ac., O.M.D., an authority on the world's herbal traditions*
